

Non-standard metrology services			
Code	Name of metrological service	Unit	Price /EUR
90100	Metrological consulting	hr	43,00
90101	Assessment of professional prerequisites of the applicant for performance of activity being the subject of authorization according to the Act N. 142/2000 Coll. on metrology	hr	43,00
90102	Expert assessment of application and of results of tests for accepting the type approval test executed abroad	hr	43,00
90103	Expert assessment of test results and other tasks related to the initial verification carried out abroad	hr	43,00
90104	Expert assessment of test results and other tasks related to the subsequent verification carried out abroad	hr	43,00
90105	Expert assessment for accepting the certified reference material prepared abroad	hr	43,00
90106	Calibration of measuring instruments	hr	21,00
90107	Verification of the legally controlled measuring instrument (when verification is executed on site, travel expenses are included in the overall price - item 90119)	hr	21,00
90108	Tests executed for type approval purposes and certification	hr	21,00
90109	Official measurements according to the Act on Metrology No. 142/2000 Col.	hr	21,00
90110	Measurements and tests intended for determination of metrological characteristics of the measuring instruments	hr	21,00
90113	Assessment of practical skills required for verification of legally controlled measuring instruments or official measurement in line with requirements of respective standards and rules	hr	43,00
90119	Price for 1 km by SMU car	km	0,30
901191	Price for 1 km by SMU car (special Mercedes car)	km	0,40
90120	Expenses connected with the travel, accommodation and daily allowances (according to the Decree on daily allowances connected with the Act No. 283/2002 Coll.)		
90121	Transportation expenses (according to the price list of the carrying agent)	pieces	
90122	Expertises	hr	43,00
90123	Administrative and supporting work	hr	21,00
90126	Tests for type approval of the measuring instrument	hr	43,00
90127	Evaluation of expert skills and general knowledge of applicant for competence certificate in the field of metrology	hr	43,00
90128	Type certification, evaluation of documentation	hr	21,00
90129	Calibration and verification of measuring instruments of dosimetric quantities	hr	51,00
90130	Calibration and verification of legally controlled measuring instruments used for measurement of radionuclides activity	hr	51,00
90131	Tests needed for type approval of the measuring instrument – dosimetric quantities	hr	51,00
90132	Measurements and tests needed for determination of metrological properties of the measuring instrument – ionizing radiation	hr	51,00
90133	Radiation of a required dosage of an ionizing radiation	hr	43,00
90134	Testing of the measuring instrument in a climate chamber at different climatic conditions within the range (-40 do +90)°C	hr	4,50
90135	Calibration of working measuring instruments	hr	21,00
90400	Photocopy of a single page, A4 format	pieces	0,10
90401	Photocopy of a single page, A3 format	pieces	0,15
90403	Express fee, agreed with a customer, calculated from a price of services (25-100)%	%	
90404	Certificate issuing (copy)	hr	17,50
90405	Extra fee for the provided service with certificate, carried out in three days	50% of price	
90406	Works exceeding the overall calibration	hr	21,00
90407	Postage and packing (related to the size of package)		

hr – hourly rate
